

In the Specification:

Insert, as a first paragraph on page 1, the following:

The present application is a Division of application S.N. 10/088,469, filed March 15, 2002.

Amend the first paragraph on page 3 to read as follows:

It is therefore an object of the present invention to indicate a method comprising administering a pharmaceutical composition, which is equivalent therapeutically to the previously used antibiotics, has a few side effects and does not promote the development of resistance.

Amend the fourth paragraph on page 5 to read as follows:

Solubilizers are preferred as inactive ingredients. As such, organic solutions, preferably ethanol, surfactants, preferably sodium dodecyl sulfate or sodium desoxycholate, carbohydrates, preferably glucose or dextrose, or lipids, preferably phosphatidylcholine, as well as mixtures of these materials can be used. These solubilizers usually are employed in amounts of 0.1 to 20 percent by weight and preferably of 0.2 to 15 percent by weight, based on the amount of Eucalyptus oil / orange oil. In accordance with the invention, the weight ratio of Eucalyptus oil to orange oil may be between 1:10 and 10:1, with a preferred ratio being 2:1. The weight content of Eucalyptus oil/orange oil may be from 1 - 80 %, preferably 10 - 75%, and more preferably 40 -70%.
